

## Weightdosage

“Weightdosage” is a software which guides the operator during dosing operations. It enables the management of weighings directly from PC, connecting it to the weight indicator, for the dosage in charge.

It is possible to interface any type of printer (POS, TMU or system printer) to manage both the information of the weighs and the archive reports.

### FEATURES:

- Management of filling cycles (orders)
- Possibility to set a default target per each order
- Interruption and restart of dispensing process
- Minimum control weight to avoid accidental filling
- Integration of new vehicles, materials, customers and users with the possibility to modify or delete items
- Ability to search by user, customer, license plate, material and order number
- Filtered display of filling operations
- User recognition through login
- Management of printing tags with the possibility to add company logo (system printer)
- Export of lists in CSV format
